## ● ABOUT ME

Passionate IT Enthusiast with Expertise in Full-Stack Development and Telemedicine Solutions. As a driven and innovative Information Technology student, I am dedicated to leveraging technology to create impactful solutions. My expertise in full-stack development has enabled me to design and implement dynamic, user-friendly applications. Currently, I am working on my final year project, focusing on a Telemedicine system for Ethiopia, aiming to improve healthcare delivery through technology. With a strong background in IT support and a keen interest in the intersection of technology and healthcare, I am committed to contributing to digital transformation in various industries.

## ● WORK EXPERIENCE

23/05/2024 – CURRENT Addis Ababa, Ethiopia

### FULL STACK DEVELOPER EFUYE GELA TECHNOLOGIES, EVENT & CONSULTANCY

- **Web Application Development:** Designing and building scalable web applications using modern frameworks and technologies such as React.js and Node.js.
- **Database Management:** Implementing and managing databases using MySQL and MongoDB, ensuring data consistency, integrity, and security.
- **Web Performance Optimization:** Continuously enhancing application performance by optimizing code and implementing caching mechanisms for faster load times.
- **Security Best Practices:** Applying industry-standard security protocols to safeguard web applications from vulnerabilities, including cross-site scripting (XSS) and SQL injection.
- **API Development and Integration:** Developing RESTful APIs and integrating third-party services to extend application functionality.
- **Testing and Debugging:** Performing rigorous testing to identify and resolve bugs, ensuring high-quality product releases.
- **Team Collaboration:** Collaborating with designers, project managers, and other developers to deliver client-oriented solutions.

08/04/2023 – 15/08/2023 Addis Ababa, Ethiopia

### NETWORK TECHNICIAN TECHLINK SOLUTIONS ETHIOPIA

- **Basic Network Configuration:** Assisting in configuring routers and switches for secure and reliable network connections.
- **Troubleshooting Support:** Providing first-level support to identify and resolve minor network issues.
- **Network Monitoring:** Supporting the use of monitoring tools to track network performance and report irregularities to senior team members.
- **System Maintenance:** Assisting in maintaining network equipment and performing basic system updates.
- **End-User Assistance:** Helping users resolve connectivity issues and understand basic network setup procedures.
- **Documentation:** Maintaining logs of network activity and issues for review by the network team.

01/08/2022 – 07/01/2023 Bahir Dar, Ethiopia

### IT SUPPORT ASSISTANT BLUE NILE TECHNOLOGIES

- **Technical Support:** Providing first-level support to troubleshoot hardware and software issues for end-users.
- **System Setup:** Assisting in the installation and configuration of new computer systems and software.
- **Maintenance:** Performing routine checks and maintenance on IT systems to ensure smooth operation.
- **User Training:** Helping users understand and utilize IT tools, applications, and systems effectively.
- **Inventory Management:** Keeping track of IT assets and assisting with procurement processes.
- **Issue Documentation:** Logging and tracking user-reported issues to ensure timely resolution by the technical team.
